

Instructions

1. **Please wash your shirts ...** Clean shirts make a clean quilt. Thank you, from the quilting staff!

2. **Design Your Quilt or Pillow ...** Look over the quilt or pillow layout guide. Decide which sides of your shirts you wish to use, and place a numbered sticker in the middle of it. You may use both the front and back of a shirt by placing a number on each side.

The numbered stickers tell us which side to use and where you want each shirt to go. Not sure what will look best? Just sticker the sides you want to use and ask us to design it for you at no extra charge.

You may use t-shirts, sweatshirts, jerseys, pants, and any other fabric. If we can put a needle through it, you can use it!

(If you received an e-mail kit, cut out the numbered squares and scotch tape them to your shirts. Please don't use packing or duct tape. It can leave a sticky residue.)

3. **How your shirts are cut:**

Our standard square is cut 15" x 15" with 14 1/2" visible. We cut this from the usable area—anywhere from the base of the collar to just above the bottom of the shirt (see Fig. 1).

Common Problem: Figure 2 illustrates the binding zone and a common problem. Try not to have designs within 1" of the outside edge of the quilt (binding zone).

4. **Fill out the Order Form ...**

A. **Complete your order form.** We will create your quilt based on the selections and instructions on your order form, **not** your original order.

B. **Interpreting the order form:**

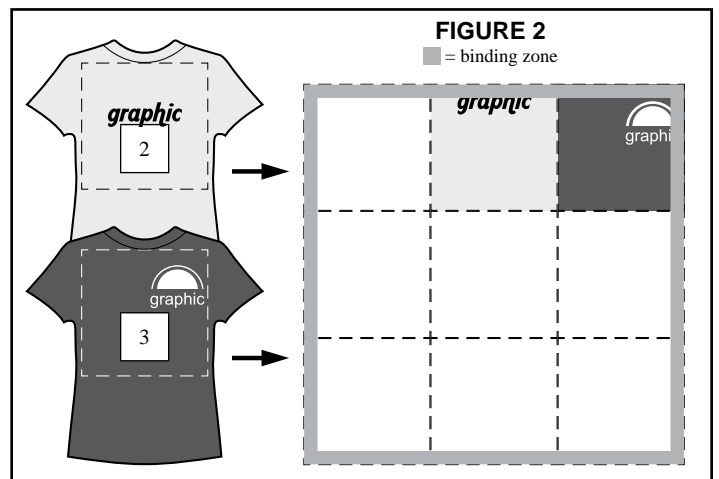

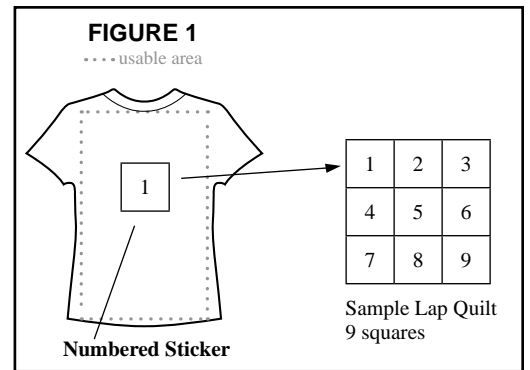

- Sashing - A 1.5" border between each square, highly recommended if many of your shirts are the same color, but looks good on any quilt. This is our most popular option.
- Embroidery - Add a custom message to your quilt.
- Photo Squares - We will turn your personal photos into squares on your quilt!
- Wall Hanging Sleeve - Add a sturdy sleeve along the top of your quilt to hang it from a rod. Not recommended for quilts that will be used on a bed.

5. **Package Your Shirts ...** Place your numbered t-shirts, order form, and fabric swatches in the bag provided and seal it securely. You may put the bag in a box, but ensure the box is less than 17" in each dimension to avoid extra shipping charges. Please take care in packaging your t-shirts securely.

6. **Shipping** (pre-paid by Brightside Quilt)...

A. **Attach the pre-paid shipping label** to the bag for direct delivery back to us. The UPS label includes a weight of 4 lbs. Don't worry if your package weighs more or less. It will still ship fine.

B. **Drop your package off at any UPS Drop Off location.** To find the location most convenient for you, click on the Find Locations link at www.UPS.com or call 1-800-PICK-UPS.

C. **Special Instructions:** If you have any special instructions, you can either write them in the space provided, or include them on a separate sheet of paper. Detailed notes are greatly appreciated, and always feel free to include a little sketch if it is hard to describe.

D. **When you are finished,** don't forget to sign the agreement at the bottom of your order form, and please let us know how you heard about us.

Design Tips:

1. Spread colored t-shirts throughout the quilt. Don't bunch them all in one area.
2. If you have many t-shirts that are the same color, add sashing (strips of colored fabric between each square). It is well worth the money and will enhance the look.
3. For more design tips, see how your t-shirts will be cut and sewn (included in this kit).

Custom Backing/Sashing Requirements

Only use this diagram if you plan on sending your own backing and/or sashing. You may use a sheet or custom fabric. For directional fabrics, add 20% extra.

Below is how we cut non-standard t-shirts and clothing.

If possible, we will center your design. For non-standard items where the design can't be centered, we have found that the cuts below look the best. If you want an item cut differently, please draw us a sketch on your order form.

Graphics larger than 15" x 15" will be cropped off.

Logos & pockets still look great off-center!

★ Additional Charge Items

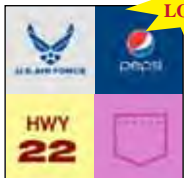

If you would like a "4-square collage" or "cut to center," please tell us on your order form.

★ "4-SQUARE COLLAGE"

A great alternative if you have a lot of shirts with chest logos. Also a better way to center small graphics.
